SAD Questionnaire

Name: Sunil Kumar SainiDepartment: InformaticsYear of joining: April 2017

Students

1. Would you prefer to have a simpler website to make the application process easier than the existing website?

Although the website is already is simpler one but if its ~~is~~ more simpler than it will be best for the student (like some time student confused between I.T

2. How desirable is to make the website self-explanatory? Comment

Like above i mentioned some time student confused between I.T & informatics so clear mentioned of subject is very helpful.

3. Would you try to look for specific fields of study before applying?

Yes, I try to look the fields which is related to databases and give the information about Business Intelligence also.

4. What do you think of the interaction with the existing website?

it very good.

5. How desirable is to keep track of your application process?

Although its good but its very helpful if the also stage wise analysis means where exactly at in which process my application is.

7. Would you like to track your application status regularly, instead of the traditional method used?

yes

8. Would you like to use a Mobile Application to apply for the university?

Yes

9. What are your views regarding signing-up to the website before actually applying for the university?

its simple
